Celebrate with a Purpose™

Located on the Georgia coast, midway between Savannah and Jacksonville, Jekyll Island is a wonderland of nature and beauty, legacies and legends. The pristinely preserved Island was once a winter recreation and golf retreat to the nation's most elite families, including the likes of the Rockefellers, Morgans and Pulitizers. Today, the serene Island is a state park with limited development and idealistic landscapes. On Jekyll Island, guests will find beaches, maritime forest and marshes; golf, camping and a 240-acre historic district. Jekyll Island is, quite simply, the Nearest Faraway Place.

A portion of our revenues will benefit the Jekyll Island Foundation to support conservation programs on Jekyll Island including the Georgia Sea Turtle Center. The Loggerhead Sea Turtle is a threatened species that relies on Jekyll Island's natural beach for critical nesting habitat. Jekyll Island Seafood Company is proud to support and celebrate the important conservation efforts of the Georgia Sea Turtle Center.
